THE IRON AGE SEMIANNUAL INDEX

JANUARY – JUNE – 1952

Volume 169

CLASSIFIED INDEX

EAST ENGINE LIBRARY
TS
300
.I649

A

Air Force:
Presses: Giant Program Sails Ahead, by W. V. Packard, Apr 3 p 85

Air Pollution:
Glass Bags Clean California Air, by Paul Siechert and Harold B. Menardi, Jan 24 p 78

Aircraft:
Aircraft Plant Runs Home Foundry, Jan 24 p 27
Develop New Forging Techniques for Aircraft Parts, by G. W. Papen and W. Schroeder, Feb 7 p 135
Fast Quench Oil Improves Hardenability in Aircraft Steels, by James McElgin, Jan 24 p 72
Foam Rubber Dunnage Cushions Jet Engine Spares, by S. H. Breslow, Feb 7 p 150
Hermetic Welding Stops Internal Corrosion, by Bernard Gross, Feb 7 p 142
Planes: Air Force Cuts Contracts, Feb 7 p 95
Plastic Molds Give More Impeller Blade Cores, Mar 6 p 211
Rolled Sections Replace Forged Jet Blades, Mar 6 p 227
Titanium Aircraft Engine Parts: An Analysis, by H. H. Hanink, May 15 p 121
Unusual Forging Machine Upsets 40 Times Bar Diameter, by Falih Darmara, Mar 13 p 100
Will 30 Pct Cutback Strike? Mar 13 p 55

Alcoholism:
Costs Industry Too Much, Feb 21 p 51
How About Your Plant? by G. G. Carr, Mar 27 p 55

Alhambra Foundry Co., Ltd.:
Glass Bags Clean California Air, by Paul Siechert and Harold B. Menardi, Jan 24 p 78

Allis-Chalmers Manufacturing Co.:
Special Controls Make Big Boring Mill Fexible, by V. H. Simson, Jan 10 p 86

Alloy Steels:
English Use Boron in Normalized and Drawn Heavy Sections, by W. E. Bardgett, Jan 10 p 81
Low-Carbon Ferro-Chrome-Silicon Cuts Stainless Ingot Costs, by N. B. McFarlane, Feb 21 p 108
Lower Alloys Developed for High Temperature Use, by C. L. Clark, Feb 21 p 98

Aluminum:
Air Force to Return Excess, Jan 31 p 64
Boost Metal Quotas, Mar 27 p 58
Caustic Etch Treats Aluminum Without Sludge or Scale, by R. J. Stell, Apr 3 p 138
Complex Parts Easily Coated with Aluminum, by W. G. Patton, June 12 p 115
Develop New Forging Techniques for Aircraft Parts, by G. W. Papen and W. Schroeder, Feb 7 p 135
Electroplated on Steel from Fused Salt Bath, by F. R. Collins, Jan 17 p 100
End of Curbs Proposed, May 22 p 101
Foil Stops Corrosion, May 1 p 147
Hydroforming Proves Economical in Small Shop, by Rhodes Danehower, Apr 10 p 124
Imports Gain Backing, by G. H. Baker, Mar 27 p 71
Metallizing Cuts Marine Maintenance Costs, by Fred M. Earle, Jan 31 p 103
Nonferrous: Biggest Bogie Fades Away, Mar 6 p 163
Ordnance Is Buying These Aluminum Products, Jan 31 p 97
Output Keeps Growing, Jan 3 p 210
Planners Suffer Setback, Mar 13 p 58
Reynolds "Opens" Plant, May 22 p 79
Strip Rolled from Continuously Cast Bar, by J. L. Hunter and R. A. Quadt, Apr 10 p 118
Willys Opens Aluminum Forging Plant, Jan 17 p 51

Aluminum Co. of Canada Ltd:
Aluminum: Planners Suffer Setback, Mar 13 p 58
Canada: Growing Giant of Minerals, Apr 17 p 70

American Institute of Mining and Metalurgical Engineers:
Beneficiation and Conservation Spark AIME Annual Meeting, Feb 28 p 108

American Iron & Steel Institute:
Boron Steel: Can You Use It? Feb 21 p 53

American Society of Tool Engineers:
Economy, Speed, and Ingenuity Mark Tool Show, Mar 27 p 102
Question Croning Patents, Mar 20 p 62

Appliances:
GE Shows New Plant, by E. C. Beaudet, Mar 27 p 56
Market Stays Sickly, June 5 p 97

Armed Forces:
Buying Offices, Jan 3 p 347

Arwood Precision Casting Co.:
Investment Casting Quality Tied to Gating, Mold Turbulence, by Rawson L. Wood and Davidlee Von Ludwig, Feb 21 p 93

Associations:
National Trade Associations and Technical Societies, Jan 3 p 478

Atomic Energy:
Low-Cost Atomic Furnace Important Research Tool, Jan 24 p 75
Wanted: Better Materials for Nuclear Reactors, by George E. Evans, Mar 13 p 93

Automotive Industry:
Atoms: Used by Ford for Testing, June 5 p 113
C-Process: Some Details Revealed, Jan 24 p 28
Car of Future, Jan 17 p 53
Nickel: Less Available for Autos? June 12 p 73

B

Babcock & Wilcox Co.:
Hot Extrusion: First Seamless Stainless Tubing with French Process, Jan 17 p 53

Baldwin-Lima-Hamilton:
Special Controls Make Big Boring Mill Flexible, by V. H. Simson, Jan 10 p 86

Bath, Cyril, Machinery Co.:
New Machine Forms Jet Rings, Mar 27 p 106

Beryllium:
Wanted: Better Materials For Nuclear Reactors, by George E. Evans, Mar 13 p 93

Boring:
New Boring Mill Will Take 350-Ton Load, Jan 17 p 96
Special Controls Make Big Boring Mill Flexible, by V. H. Simson, Jan 10 p 86
Twelve Surfaces and Eight Bores Finished in Two Setups, Feb 14 p 129
See also Machining

Boron:
Can You Use It? Industry Hasn't Accepted It with Open Arms, Feb 21 p 53
English Use Boron in Normalized and Drawn Heavy Sections, by W. E. Bardgett, Jan 10 p 81
New Army Specs Conserve Metals, Mar 20 p 53
Technical Trends — Ingenuity Must Overcome Shortages in 1952, by D. I. Brown, Jan 3 p 253

Brass:
Revere Installs Large Water-Cooled Mold for Brass Ingots, Jan 24 p 68

Brazing:
Titanium Aids Silver Brazing, by Arnold S. Rose, Mar 20 p 96

Broaching:
Automatic Fixture Triples Broach Output, Mar 13 p 97
Rebuilt Broach Saves $400 Per Day, Feb 28 p 111
Twelve Surfaces and Eight Bores Finished in Two Setups, Feb 14 p 129
See also Machining

Brushing:
Power Brushing Increases Diamond Wheel Cutting Action 80 Pct, Apr 10 p 130

Buick Motors Div.:
Flame Hardener Treats Cams at High Speeds, by W. G. Patton, Mar 20 p 98
Machine Makes Cores, Faster, Cheaper, Better, by Herbert Chase, Mar 27 p 93
Tooling Innovations Aid Small Parts Production, by Herbert Chase, Feb 14 p 123
UAW Continues Communist Purge, Mar 27 p 54

C

Canada:
Aluminum Imports Gain Backing, by G. H. Baker, Mar 27 p 71
Canada Watches Steel Settlement, Mar 27 p 54
Growing Giant of Minerals, Apr 17 p 70
New Zinc Plant in Canada, Apr 3 p 87

Carbide Tools:
Cutters Speed Wheel Truing, by A. Zamis, June 12 p 132

Induction Heater Cuts Tool Costs, by Elroy Fellwock, Mar 6 p 223

Jet Sprayed Oil Ups Tool Life 1200 Pct, Jan 17 p 97

New Machining Techniques Evaluated, by George Elwers, Mar 20 p 103

New Tool Steels and Carbides, Mar 6 p 228

Salvage Plan Reuses 78 Pct of Scrap Carbide, by W. M. Halliday, Mar 6 p 208

Tooling Innovations Aid Small Parts Production, by Herbert Chase, Feb 14 p 123

Casting, Continuous:

Aluminum Strip Rolled from Continuously Cast Bar, by J. L. Hunter and R. A. Quadt, Apr 10 p 118

Casting, Die:

Good Design Can Cut Die Casting Costs, by W. M. Halliday, June 5 p 138

How to Use Copper Alloys in Diecastings, by L. F. Spencer, Jan 10 p 90

Small Plants Favor Induction Furnaces, by Lewis B. Reed, May 29 p 79

Casting, Investment:

Quality Tied to Gating, Mold Turbulence, by Rawson L. Wood and Davidlee Von Ludwig, Feb 21 p 93

Casting, Sand:

Core Maker Uses Ultramodern Controls, by Leon F. Miller, May 15 p 114

Castings:

Press Castings from Europe, May 8 p 73

Castings, Ferrous:

Controlled Solidification Cuts Die Finishing Costs, Apr 24 p 140

Job Foundry Tackles Shell Mold Production, by G. Palmer Derby, May 15 p 109

Rare Earths Improve Properties of Many Ferrous Metals, by W. E. Knapp and W. L. Bolkcom, May 1 p 140

Castings, Nonferrous:

Revere Installs Large Water-Cooled Mold for Casting Brass Ingots, Jan 24 p 68

Churchill, Winston:

Scrap on His Mission Agenda, Jan 10 p 41

Clad Metals:

New Method Tested for Cladding Bullet Jackets, by Sam Tour, Mar 27 p 108

Cleaning and Finishing:

Aluminum Electroplated on Steel from Fused Salt Bath, by F. R. Collins, Jan 17 p 100

Caustic Etch Treats Aluminum without Sludge or Scale, by R. J. Stell, Apr 3 p 138

Complex Parts Easily Coated with Aluminum, by W. G. Patton, June 12 p 115

Control Addition Agent Vital in Lead-Tin Plating, by J. B. Mohler, Feb 7 p 139

Ion Exchange Saves Chromic Acid, May 1 p 152

Shot Blasting Speeds Stainless Strip Cleaning, by J. B. Delaney, June 19 p 133

Vapor Deposition May Solve Today's Coating Problems, by I. E. Campbell and C. F. Powell, Apr 10 p 113

Zinc Protects Trailer Parts from Corrosion, by W. G. Patton, May 29 p 82

See also Electroplating; Descaling

Coal:

Britain: Needs Materials, Men, Feb 14 p 88

Strike Slows Down Production, June 19 p 93

Steelmakers Buy Reserves, Feb 14 p 87

Wages, Mine Safety Rear Up Again, Feb 7 p 93

Coke:

Is Shortage Possible in Mid-1953? Mar 20 p 51

Strike Slows Down Production, June 19 p 93

Construction:

Building Gains: Industrial Construction Increased in 1951, Jan 17 p 62

Building: Will '52 Be Record Year? May 29 p 44

Housing: Steel Home Sales Gain, June 12 p 76

Consumer Products:

CMP: Civilian Goods Cut 25 Pct, Jan 17 p 56

Containers:

Foam Rubber Dunnage Cushions Jet Engine Spares, by S. H. Breslow, Feb 7 p 150

Controlled Materials Plan:

Ceilings: Inventory Curbs Eased, Apr 10 p 79

Civilian Goods Cut 25 Pct, Jan 17 p 56

CMP Allotments — Third Quarter, Apr 3 p 88

Decontrol: No Timetable Changes, by A. K. Rannells, Mar 27 p 60

How Long Will It Last? Jan 17 p 55

Planners Fight to Keep It, May 8 p 78

Quotas: More for Civilian Goods, Apr 3 p 88

Railroads: Shortchanged on Steel? Feb 7 p 99

Controls:

Building: Will '52 Be Record Year? May 29 p 44

CMP: Planners Fight to Keep It, May 8 p 78

Copper: Hot Penny Gets Hotter, June 12 p 78

Copper: Pricing Still Confused, June 5 p 98

Defense Controls Guide, Jan 3 p 327

Quotas: NPA Eases Metal Curbs, June 26 p 62

Steel, Start Military Set-Asides, May 22 p 80D

Coolants:

Are You Getting the Most from Your Water Sprays? by W. P. Wallace and C. E. Manes, Jr., Jan 31 p 112

Jet Sprayed Oil Ups Tool Life 1200 Pct, Jan 17 p 97

Copper:

Boost Metal Quotas, Mar 27 p 58

GE Substitutions, Design Changes Save 10 Million Lb, Feb 14 p 87

Hot Penny Gets Hotter, June 12 p 78

How to Use Copper Alloys in Diecastings, by L. F. Spencer, Jan 10 p 90

Michigan Mines Stage Comeback, June 19 p 94

New Method Tested for Cladding Bullet Jackets, by Sam Tour, Mar 27 p 108

Nonferrous: Biggest Bogie Fades Away, Mar 6 p 163

Ore Development Pushed, May 1 p 119

Pricing Still Confused, June 5 p 98

Raise Ingots from Lease, Jan 31 p 60B

Subsidy Agreements Signed, Mar 27 p 64

Tin and Copper in Steel: Both Are Bad, Together They're Worse, by S. L. Gertsman and H. P. Tardif, Feb 14 p 136

World Market Curbs Ended, May 29 p 42

Corrosion:

Aluminum Foil Stops Corrosion, May 1 p 147

British Study Corrosion of Steel, Iron Pipe, Feb 21 p 97

Hermetic Welding Stops Internal Corrosion, by Bernard Gross, Feb 7 p 142

Metallizing Cuts Marine Maintenance Costs, by Fred M. Earle, Jan 31 p 103

Zinc Protects Trailer Parts from Corrosion, by W. G. Patton, May 29 p 82

Croning Process:

Question Croning Patents, Mar 20 p 62

Curtis-Wright Corp.:

Hot Extrusion Solves Production Problem, May 1 p 139

Cutler-Hammer, Inc.:

Special Controls Make Big Boring Mill Flexible, by V. H. Simson, Jan 10 p 86

D

Daco Machine Tool Co.:

Robot Controls Machine Tools, Jan 10 p 85

Defense:

Aluminum Imports Gain Backing, by G. H. Baker, Mar 27 p 71

CMP: How Long Will It Last? Jan 17 p 55

Coke: Is Shortage Possible in Mid-1953? Mar 20 p 51

Controls Guide, Jan 3 p 327

Expansion: Tax Writeoffs Help, Jan 24 p 43

Loans: Washington Will Help You, Government Financing Helps Business Expand, Feb 21 p 56

Personnel Directory, Jan 3 p 335

Quotas: More for Civilian Goods, Apr 3 p 88

Small Plants: More Power to Agency? Jan 24 p 24

Steel: Famine Hits Defense Plants, June 26 p 57

Tips on Doing Business with the Government, Jan 3 p 348

War Work: How to Meet Military Procurement, Mar 13 p 53

War Work: More for Small Business? Jan 17 p 52

Defense Materials Procurement Agency:

Copper Subsidy Agreements Signed, Mar 27 p 64

Defense Production Administration:

Accept New Locomotive Formula, Mar 27 p 64

Aluminum: Air Force to Return Excess, Jan 31 p 64

Aluminum: Planners Suffer Setback, Mar 13 p 58

Cement Tax Write-Offs Planned, Mar 27 p 68

Materials: Who Caused Shortages? by T. Metaxas, Mar 27 p 59

Power: More Facilities Needed, Apr 3 p 103

Steel: Washington Isn't Listening, Mar 20 p 58

Defense Transport Administration:

Freight: Sets New Car Goals, May 1 p 96

Descaling:

Induction Heat Cuts Descaling Costs, Jan 17 p 106

Design:

How to Design for Repeated Loads, by R. L. Templin and E. C. Hartmann, Mar 27 p 9

Diamond:

New Machining Techniques Evaluated, by George Elwers, Mar 20 p 103

Power Brushing Increases Diamond Wheel Cutting Action 80 Pct, Apr 10 p 130

Wanted: Diamond Tool Standards, by H. L. Strauss, Jr., Jan 24 p 69

What You Can Do About the Diamond Wheel Shortage, by L. H. Metzger, Mar 6 p 20

Diecasting, see Casting, Die

Drilling:

61 Close-Spaced Holes Drilled with One Clamping, by W. G. Patton, June 5 p 142

See also Machining

Dynakon Corp.:

Plastic: Will It Work As Tin Plate? Jan 10 p 36

E

Electrical Equipment:

Cold Header Produces Commutator Segments, by Herbert Chase, Jan 24 p 70

Electronics:

Beta Ray Controls Paperboard Thickness, Jan 24 p 74

Electroplating:

Aluminum Electroplated on Steel from Fused Salt Bath, by F. R. Collins, Jan 17 p 100

Brightwork: Cars Try Substitutes, May 1 p 94

Control Addition Agent Vital in Lead-Tin Plating, by J. B. Mohler, Feb 7 p 139

Enamel, Porcelain:

New Process Cuts Costs, May p 95

Exports:

Trade: Export-Import Gap Widens, Mar 13 p 59

Extrusion:

Hot Extrusion: First Seamless Tubing with New French Process, Jan 17 p 53

Hot Extrusion Solves Production Problem, May 1 p 139

Technical Trends — Ingenuity Must Overcome Shortages in 1952, by D. I. Brown, Jan p 253

F

Fabricating:

New Construction Method Favors Light Steel Framing, Mar 1 p 103

Stainless Gutters, Downspouts Easily Fabricated, June 12 p 126

Stud Welding Cuts Fabrication Time, Apr 24 p 146

Welded Tubing Produced on Fast Automatic Lines, by Frank Manor, May 29 p 96

Fairless Works:

Tinplaters: Controls Sap Their Sales, Feb 21 p 52

Fansteel Metallurgical Corp.:
Tantalum Production Expansion, May 15 p 71

Farm Equipment:
Machinery: Output for Farms Slows, May 29 p 43
Tractors: Farm Demand Stays High, by K. W. Bennett, Apr 10 p 76

Ferroalloys:
Low-Carbon Ferro-Chrome-Silicon Cuts Stainless Ingot Costs, by N. B. McFarlane, Feb 21 p 108

Finishing, see Cleaning and Finishing

Fontana Works:
New Mill Beats the Odds, Jan 31 p 61

Ford Motor Co.:
Cold Header Produces Commutator Segments, by Herbert Chase, Jan 24 p 70
UAW Continues Communist Purge, Mar 27 p 54
Uses Alloy to Make Pilot Models, Mar 27 p 79

Foreign Trade:
Tin: Greater Supply at Our Price? by R. L. Hatschek, Mar 27 p 58
Trading: Russian Buyers Slip Underground, May 22 p 73

Forging:
Automatic Forging Presses Feature New Shell Line, by Henry Irwin and John A. Verson, May 22 p 117
Big Salt Bath Heats Steel Forging Billets, June 5 p 141
Develop New Forging Techniques for Aircraft Parts, by G. W. Papen and W. Schroeder, Feb 7 p 135
Forge Shop Installs Compact Steel Melting Plant, by D. I. Brown, June 12 p 119
Forges Titanium Successfully, Mar 6 p 164
Israel: Seeks Security in Industry, Jan 17 p 54
Rolled Sections Replace Forged Jet Blades, Mar 6 p 227
Unusual Forging Machine Upsets 40 Times Bar Diameter, by Falih Darmara, Mar 13 p 100
Willys Opens Aluminum Forging Plant, Jan 17 p 51

Forming and Bending:
Cold Header Produces Commutator Segments, by Herbert Chase, Jan 24 p 70
Hydroforming Proves Economical in Small Shop, by Rhodes Danehower, Apr 10 p 124
New Machine Forms Jet Rings, Mar 27 p 106
Novel Methods Used to Form Molybdenum, by G. L. Miller, Apr 17 p 122
Small Press Does Job of Presses Ten Times Bigger, May 8 p 125

Foundry:
Aircraft Plant Runs Home Foundry, Jan 24 p 27
British Develop Novel Process to Charge Borings into Side of Cupola, May 15 p 79
Business Still Becalmed, May 15 p 70
Controlled Solidification Cuts Die Finishing Costs, Apr 24 p 140
Cupola Hot Metal Increases Steel Production, Cuts Ingot Costs, by D. I. Brown, Feb 28 p 104
Cut Mold Costs with Cement Sand, by N. A. Jeppesen, Apr 17 p 116
Glass Bags Clean California Air, by Paul Seichert and Harold B. Menardi, Jan 24 p 78
Investment Casting Quality Tied to Gating Mold Turbulence, by Rawson L. Wood and Davidlee Von Ludwig, Feb 21 p 93
Job Foundry Tackles Shell Mold Production, by G. Palmer Derby, May 15 p 109
Machine Makes Cores Faster, Cheaper, Better, by Herbert Chase, Mar 27 p 93
Mold Sand Mixed Electronically, Jan 10 p 37
Question Croning Patents, Mar 20 p 62
Shell Molding Steals Foundry Show, May 15 p 118
Some Order Books Sag, Jan 24 p 25
Technical Trends — Ingenuity Must Overcome Shortages in 1952, by D. I. Brown, Jan 3 p 253
See also Casting

France:
Modernizes Its Iron Mines, Mar 6 p 168

Freight:
DTA Sets New Car Goals, May 1 p 96

Fuel:
Low-Sulphur Oil: PAD Office Closes as Officials See Shortage Licked, Apr 3 p 86

Furnaces, Atomic:
Low-Cost Atomic Furnace Important Research Tool, Jan 24 p 75

Furnaces, Blast:
Experimental Furnace Recovers Manganese from Slag, by R. C. Buehl, Feb 28 p 97
Shutdown Damage Costly, May 8 p 73
Sinter Production Tied to Plant Design, by Martin L. Cover, June 5 p 145

Furnaces, Electric:
Builders See Order Decline, Jan 31 p 60D

Furnaces, Heat Treating:
Continuous Carbon Restoration Furnace Boosts Production, by J. D. Armour, Apr 17 p 111
Induction Heat Cuts Descaling Costs, Jan 17 p 106

Furnaces, Openhearth:
Experimental Low Shaft Furnace to Run on Poor Quality Coke, Ore, Apr 17 p 71

G

Gas:
New Illinois Storage Field, Jan 31 p 62
Pipeline Spans Mississippi to Bring Gas to Chicago, Feb 14 p 89

Gears:
Order Index Strips Teeth, June 12 p 77

General Aniline & Film Corp. (Ansco):
Stampings Make Strong, Accurate Camera Parts, by Herbert Chase, Jan 10 p 92

General Electric Co.:
Appliances: GE Shows New Plant, by E. C. Beaudet, Mar 27 p 56
GE Substitutions, Design Changes Save 10 Million Lb of Copper, Feb 14 p 87
Switchgear: GE Completes Test Lab, June 19 p 92

Grinding:
Abrasive Belt Machine Grinds Jet Blade Airfoils, by George Elwers, May 15 p 126
New Machining Techniques Evaluated, by George Elwers, Mar 20 p 103
No Diamond Grinding with Brazed Chipbreaker, Mar 20 p 102
Vertical Grinder Cuts Cost on Shell Parts, June 12 p 134
What You Can Do About the Diamond Wheel Shortage, by L. H. Metzger, Mar 6 p 203
See also Machining

H

Hardening:
Are You Getting the Most From Your Water Sprays? by W. P. Wallace and C. E. Manes, Jr., Jan 31 p 112
Fast Quench Oil Improves Hardenability in Aircraft Steels, by James McElgin, Jan 24 p 72
Quench-Temper Treatment Improves Nodular Irons, by J. E. Rehder, Jan 17 p 89
See also Furnaces, Heat Treating

Heat Treating:
Apprentice Heat Treater Standards Adopted, May 29 p 98
Big Salt Bath Heats Steel Forging Billets, June 5 p 141
Close-Tolerance Steel Parts Austempered Without Distortion, by John Kolb, Apr 3 p 142
Continuous Carbon Restoration Furnace Boosts Production, by J. D. Armour, Apr 17 p 111
Fast Quench Oil Improves Hardenability in Aircraft Steels, by James McElgin, Jan 24 p 72
Flame Hardener Treats Cams at High Speeds, by W. G. Patton, Mar 20 p 98
Induction Heat Cuts Descaling Costs, Jan 17 p 106
Precision Control Speeds Shell Production, by W. G. Patton, Apr 3 p 127
Properties Predictable in Complex Assemblies, by J. L. Waisman, Feb 7 p 146
Quench-Temper Treatment Improves Nodular Irons, by J. E. Rehder, Jan 17 p 89
Rotary Furnaces Feed Automatic Steel Treating Line, by A. Q. Smith, May 8 p 122
SAE Charts Simplify Selection of Heat Treatable Steels, Feb 14 p 130
Unique Line Hardens and Chills 16-ft Pieces, by H. W. Dammel, Apr 17 p 120
Water Sprays: How Effective Can They Be, by W. P. Wallace, and T. L. Newton, Apr 10 p 121

Housing:
Steel Home Sales Gain, June 12 p 76

I

Imports:
Aluminum Imports Gain Backing, by G. H. Baker, Mar 27 p 71
German Tools: Eager to Sell to U. S., Mar 20 p 61
Manganese: Red Loss Wiped Out, by W. W. Talyor, Mar 27 p 57

Induction Heating, Melting:
Cuts Descaling Costs, Jan 17 p 106
Induction Heater Cuts Tool Costs, by Elroy Fellwock, Mar 6 p 223
Small Plants Favor Induction Furnaces, by Lewis B. Reed, May 29 p 79

Industry:
Alcoholism: Costs Industry Too Much, Feb 21 p 51
Alcoholism: How About Your Plant? by G. G. Carr, Mar 27 p 55
Atoms: Used by Ford for Testing, June 5 p 113
Britain: Needs Materials, Men, Feb 14 p 88
Buying: End of Seller's Market in Sight, June 5 p 91
